

Arjun Yadav

<https://arjunmakesthings.github.io>

Passionate about the interplay between humans & computers,
with a strong inclination for people-centered design.

WORK EXPERIENCE

Aug 2022 - Present
Mumbai, India

Design Researcher, TinkerLabs

- Conducted primary research and led conversation design for the Just Ask chatbot for UNFPA, to enable adolescents in Tier-3 towns to get social & sexual health information.
- Led ethnographic research for the Udhyam Foundation to identify enablers & barriers for nano-entrepreneurs to achieve business growth.
- Led the design research and proposed a UX redesign for the Nayi Disha website, to enable caregivers for PWD to swiftly access appropriate resources.
- Led an appreciative enquiry for Vipla Foundation to identify the most transformative practices at play for their training program aimed at upskilling women from marginalised communities.
- Helped redesign resources developed by the International Justice Mission to enable different stakeholders to use them more efficiently.
- Designed, tested and helped re-design an intervention for Project Concern International to increase contraceptive access for women in rural Bihar with migrant husbands.
- Facilitated 15+ 'Design Thinking x Behaviour Science' workshops for organisations and higher education institutes.

Jun 2022 - Present
Remote

Faculty, AND Academy

- Taught and evolved 'Think Lab', an experiential learning module to develop the creative & critical thinking potential of new design students.
- Mentored final year UX UI PG Diploma students for their capstone projects and ran a 5-week long UI/UX design project.

Jan 2022 - Jul 2022
Bengaluru, India

Xperimenter, Science Gallery Bengaluru

- Programmed 'In Between Life & Death', a web-game for young adults to prompt them to question human needs.
- Led the graphic design for 'Earth 2052: Hot or Not', a speculative climate vision workshop, presented at the Science Gallery Youth Symposium 2022.
- Conducted various public engagement activities for young adults to interface with the gallery.

Jun 2021 - Oct 2021
Delhi, India

Product Design Intern, Canonic

- Redesigned the onboarding experience of the platform, leading to a 22% increase in onboarding completion rates.
- Led user research and testing for various product features.
- Worked on 2 prototypes to enhance accessibility and user delight on the platform.

Jun 2020 - Jul 2020
Remote

Design Intern, Whitenoise Design

- Worked on multiple identity, interface & packaging design projects.

Jun 2018 - Dec 2020
Multiple Locations

Freelance Visual Designer

- Worked with 8 clients for 20+ graphic, identity & interface design projects.
